

DNSSEC RFC Standards

The following standards, published in March 2005, specify the core functionality of DNSSEC:

RFC 4033 - DNS Security Introduction and Requirements

<http://www.rfc-archive.org/getrfc.php?rfc=4033>

RFC 4034 - Resource Records for the DNS Security Extensions

<http://www.rfc-archive.org/getrfc.php?rfc=4034>

RFC 4035 - Protocol Modifications for the DNS Security Extensions

<http://www.rfc-archive.org/getrfc.php?rfc=4035>

RFC 5155 - DNS Security (DNSSEC) Hashed Authenticated Denial of Existence

<http://www.rfc-archive.org/getrfc.php?rfc=4310>

RFC 4641 - DNSSEC Operational Practices

<http://www.rfc-archive.org/getrfc.php?rfc=4641>
